### **Rock Island County Land Use Visioning Workshop**

**Rock Island, IL** – Rock Island County officials are seeking citizens' input for the development of a comprehensive land use plan update for the county. The plan will lay the foundation for future growth and development in Rock Island County for the next 15-20 years.

Residents of Rock Island County can participate in either workshop, which will both include visioning and mapping exercises:

- September 4, 2019, 6-8 p.m., Hampton Heritage Center, 251 S. State Ave., Hampton, IL
- September 16, 2019, 6-8 p.m., Niabi Zoo Oceans Gallery, 13010 Niabi Zoo Rd. Coal Valley, IL

No registration is required. During the meetings, citizens will learn about the comprehensive planning process and have a chance to give input on how land may be developed in the future. The public's input will help shape a county vision and set goals as part of the comprehensive plan.

A Steering Committee of volunteers is guiding the plan development and will make recommendations to the County Board for the update. Staff from Bi-State Regional Commission will facilitate the meeting, which is open to the public.

Workshop presented by:
