

Attached find the **2020 ASSESSMENT COMPLAINT** form. It is strongly recommended that you discuss your assessment with the Township Assessor prior to filing a complaint. Many times the reason for the assessment can be made clear and the need for the filing of a complaint eliminated. If, after talking with the township assessor, you still wish to file a complaint, the assessor can supply property record cards for the subject property and any comparable properties that you choose. The 30-day time limit for filing will not be changed to allow for discussing the assessment with the assessor. The *Rock Island County Board of Review Rules of Procedure* are available at [www.rockislandcounty.org](http://www.rockislandcounty.org). If you would like us to mail you a complaint form and rules, please call 309-558-3670.

**Two sets (2) of the complaint form and two (2) sets of all evidence** must be submitted with your complaint. It is recommended that you keep an additional set for yourself.

Complaints can only be filed by the owner of the property or the taxpayer of record. Owners or taxpayers of record may designate an attorney to represent them by submitting written authorization with their complaint (see c. below). See the [Board of Review Rules](#) section D-2 for more information to who has standing to file an appeal. Corporations, limited liability companies, limited partnerships and other similar entities shall be represented at all stages before the Rock Island County Board of review by a person licensed to practice law in the State of Illinois. The Rock Island County Board of Review requires that attorneys provide their license number on each appeal.

**Non-Compliant complaint forms:** If the complaint form does not comply with the Board of Review's rules, you will be sent notification acknowledging receipt of the complaint. The notification will include a copy of the first page of the complaint form and an explanation of which rules have not been complied with. You will be provided with 10 business days to bring the complaint into compliance. If it is brought into compliance within the 10 business days, the complaint will be processed. For purposes of this section, a complaint form not in compliance with the Board of Review rules is defined as:

- a. A complaint form that lacks sufficient information to identify the property in question;
- b. A complaint form that is not signed by the property owner/taxpayer of record; or
- c. A complaint form that is signed by an attorney, but is not accompanied by a letter of authorization signed by the property owner/taxpayer. **The written authorization must include authorization for the assessment year that is being appealed. The authorization must be signed by the owner/taxpayer and dated with the current date. The authorization MUST BE NOTARIZED.**
- d. A complaint form that does not indicate a requested value, by either full market value or assessed value.

**If a complaint is received AFTER the statutory thirty (30) days from publication filing deadline, the entire complaint will be returned to the taxpayer along with a letter and a copy of the postmarked envelope indicating that the complaint was received after the statutory filing deadline.**

It is the responsibility of the complainant to provide the Board comprehensive evidence, relative to market value, assessment comparability, or use, in support of the complaint. Use page two of the complaint form to describe the subject and comparable properties. A listing of previous year's sales is available at: [www.rockislandcounty.org/AssessmentOffice/SalesReports/](http://www.rockislandcounty.org/AssessmentOffice/SalesReports/).

For residential homes, use gross living area excluding basement. Photographs of the subject property and all comparables should be included. Examples of evidence you would submit include copies of closing disclosures, sales contracts, appraisals, pictures of your property and comparable properties. One copy of your evidence is sent to the assessor.

The township assessor also supplies two sets of their evidence to the Board of Review. One set of evidence will be mailed to you. After you receive the assessor's evidence, you may rebut it. All rebuttal evidence must be submitted at least 10 days prior to the scheduled hearing.

**FARM COMPLAINTS:** All farmland complaints need to have proof the land has been farmed for the previous two years. Proof can consist of copies of Federal Tax Return with the F form included for the previous two years.

**THE LAST DATE FOR FILING A COMPLAINT SHALL BE: DECEMBER 21, 2020**

The date for filing for a mailed complaint shall be the **canceled postmark date**. Metered mail must have a post office date stamp.

# Definition of a farm

---

To be eligible for a farm assessment, tracts of land must

- meet the statutory use requirements of the farm definition of Section 1-60 of the Property Tax Code, below, and
- have met those requirements for the preceding two years.

## Definition of a farm

### “Section 1-60 Farm.

When used in connection with valuing land and buildings for an agricultural use, any property used solely for the growing and harvesting of crops; for the feeding, breeding and management of livestock; for dairying or for any other agricultural or horticultural use or combination thereof; including, but not limited to, hay, grain, fruit, truck or vegetable crops, floriculture, mushroom growing, plant or tree nurseries, orchards, forestry, sod farming and greenhouses; the keeping, raising and feeding of livestock or poultry, including dairying, poultry, swine, sheep, beef cattle, ponies or horses, fur farming, bees, fish and wildlife farming. The dwellings and parcels of property on which farm dwellings are immediately situated shall be assessed as a part of the farm. Improvements, other than farm dwellings, shall be assessed as a part of the farm and in addition to the farm dwellings when such buildings contribute in whole or in part to the operation of the farm. For purposes of this Code, “farm” does not include property which is primarily used for residential purposes even though some farm products may be grown or farm animals bred or fed on the property incidental to its primary use. The ongoing removal of oil, gas, coal or any other mineral from property used for farming shall not cause that property to not be considered as used solely for farming.”

---

## The four parts of a farm

In setting the assessment on a farm parcel, local assessing officials must consider four separate parts of the farm: farm homesite, farm residence, farm buildings, and farmland. These four parts and the assessment method for each are described below.

**Note:** Complaints for a farm homesite or farm residence should be filed on Form PTAX-230, not this Form PTAX-227, because these are considered non-farm property for assessment complaint purposes.

**1 — Farm homesite** is defined as the land on a farm parcel used for residential purposes. The farm homesite is assessed at 33 1/3 percent of its market value as residential land, like all other residential land in the county. The market value is whatever comparable rural residential land is selling for in the area. This part of the farm is subject to board of review and state equalization factors.

**2 — Farm residence** is assessed at 33 1/3 percent of its market value as residential property, like all other residential improvements in the county. Like the farm homesite, the residence is subject to board of review and state equalization factors.

**3 — Farm buildings** are assessed at 33 1/3 percent of their contributory value to the productivity of the farm. Contributory value considers the current use of the improvements and what that use adds to the overall productivity of the farming operation. Contributory value is the same concept as value in use. This part of a farm parcel assessment is subject to board of review factoring, but not state equalization factors.

**4 — Farmland** is assessed according to

- the type of soils present and their potential to produce crops as adjusted for factors that detract from productivity, such as slope, erosion, and flooding; and
  - land use; the statutes identify four categories of farmland and a method of assessing each one.
- 

## The four categories of farmland

The four categories of farmland are cropland, permanent pasture, other farmland, and wasteland. The definition and method for assessing each of these categories follows.

**1 — Cropland** includes

- all land from which crops were harvested or hay was cut;
- all land in orchards, citrus groves, vineyards, and nursery and greenhouse crops;
- land in rotational pasture and grazing land that could have been used for crops without additional improvements;
- land used for cover crops, legumes, and soil improvement grasses, but not harvested and not pastured;
- land on which crops failed;
- land in cultivated summer fallow; and
- idle cropland.

Cropland is assessed according to the equalized assessed value (EAV) of its debased soil productivity index (PI) as certified by the department. Each year the department supplies a table that shows the EAV of cropland by PI.

**2 — Permanent pasture** includes any pasture land except

- pasture land qualifying under the cropland definition, which includes rotational pasture and grazing land that could have been used for crops without additional improvements, and
- woodland pasture.

Permanent pasture is assessed at one-third of its debased PI EAV as cropland.

**3 — Other farmland** includes

- woodland pasture;
- woodland, including wood lots, timber tracts, cutover, and deforested land; and
- farm building lots other than homesites.

Other farmland is assessed at one-sixth of its debased PI EAV as cropland.

**4 — Wasteland** is the portion of a qualified farm tract that is not put into cropland, permanent pasture, or other farmland as the result of soil limitations and not as the result of management choices.

In many instances, wasteland enhances the productivity of other parts of the farm parcel. For instance, some land may be more productive because wasteland provides a path for water to run off or a place for water to collect. Wasteland that contributes to the productivity of the farm is assessed at one-sixth of the EAV per acre of cropland of the lowest PI certified by the department. Wasteland that does not contribute to the productivity of the farm should be given a zero assessment.
